

Alkaline Phosphatase from calf intestine

Cat. no.: 4700

Lot. no.: _____

Exp. Date: _____

Analysis: Activity and homogeneity analysis.

Specifications: Activity: >1000 U/mg
(25 °C, 4-nitrophenyl-phosphate, glycin as buffer).

Results: Activity: _____ U/mg protein.

Protein: _____ mg/ml

Homogeneity: The protein gives a single peak on FPLC gel filtration analysis.

Apperance: Clear, almost colourless solution in 50% Glycerol, 5mM Tris, 5mM MgCl₂, 0.1 mM ZnCl₂, pH 7.0.

Storage: Store at 4°C. Do not freeze.

Remarks: For research use only. Not for human or drug use.
